Detailed Violation Analysis

Each violation found during the accessibility scan is explained in detail below:

#1 - target-size

Impact: **Serious**

Description: Ensure touch targets have sufficient size and space

Target Element: `.search-button`

Issue: Fix any of the following: Target has insufficient size (26px by 23px, should be at least 24px by 24px) Target has insufficient space to its closest neighbors. Safe clickable space has a diameter of 23px instead of at least 24px.
